WARRANTY

Applications

Enjoy the design, hardness and resistance of natural stone without fear of staining. Sensa by Cosentino® quartzites and granites have a revolutionary anti-stain treatment that protects them throughout the life of your countertop.

Textures

The colours and textures of Sensa by Cosentino® have the calm and whimsical design of nature. Each of the shades available has a texture that produces different effects and sensations: Suede, Polished or Caresse.

Sensa by Cosentino® treatment

Cosentino® subjects granite and quartzite to an invisible, long-lasting treatment capable of chemically integrating into the material and allowing it to breathe. This technology increases its powerful natural properties and prolongs its life.

The process alters the surface tension of the stone, thus causing the material itself to prevent liquids such as water, coffee or oil from penetrating.
